

NIH Library Resource Training

Course Descriptions

EndNote® Basics

Learn how to use EndNote software to perform searches, capture references and convert them to records in a personal, searchable database. Also learn to select references and format them for your papers using specific journal styles and instantly create your bibliography.

PubMed®

PubMed is the National Library of Medicine's (NLM) web interface to the Medline database. Use PubMed to find references to journal articles in the medical and health sciences. In this class you learn the basic features of searching PubMed including ordering articles online.

Reference Manager®

Reference Manager software allows you to electronically manage your reference files. Learn how to link to references in your Reference Manager library when writing papers and automatically format papers to meet the requirements of various publications.

Scopus™

Scopus is an interdisciplinary, bibliographic database that indexes the contents of more than 15,000 journals in the physical sciences, engineering, earth and environmental sciences, life and health sciences, social sciences, psychology, business, and management. Scopus content includes Medline and Embase citations. Learn how to search Scopus to identify articles of interest; perform cited reference searches, store searches and create subject, author or cited reference email alerts.

QUOSA™

QUOSA Information Manager makes it possible to search your favorite databases, e.g., PubMed, Web of Science and Ovid databases and quickly retrieve all the full-text articles at one time. Quosa also allows you to query, organize, save, share, and analyze information from your desktop. QUOSA has effortless integration with EndNote and Reference Manager. Also learn about the advanced QUOSA functions including: Concepts4Clustering™, Algorithm settings and the Virtual Library.

Web of Science®

Web of Science provides access to the Science Citation Index Expanded and Social Sciences Citation Index. It offers current and retrospective bibliographic information, author abstracts, and cited references and allows users to conduct broad-based, comprehensive searches that uncover all the relevant information they need. It provides cited reference searching, the unique ISI search and retrieval feature that lets users track the literature forward, backward, and through the database. Web of Science is updated weekly.

NIH Library Training Room - Lower Level

The NIH Library is located in Bldg.10 on the first floor near the South Entrance. Enter the library and proceed to the lower level Training Room. Call 301.496.1080 for more information
